

## HCHB MFA Setup Guide (Required)

Multi-Factor Authentication (MFA) is now required to access Homecare Homebase (HCHB). This adds an extra layer of security using your personal phone.

### Step 1: Download Microsoft Authenticator

Download the **Microsoft Authenticator** app on your **personal phone** (iPhone or Android)

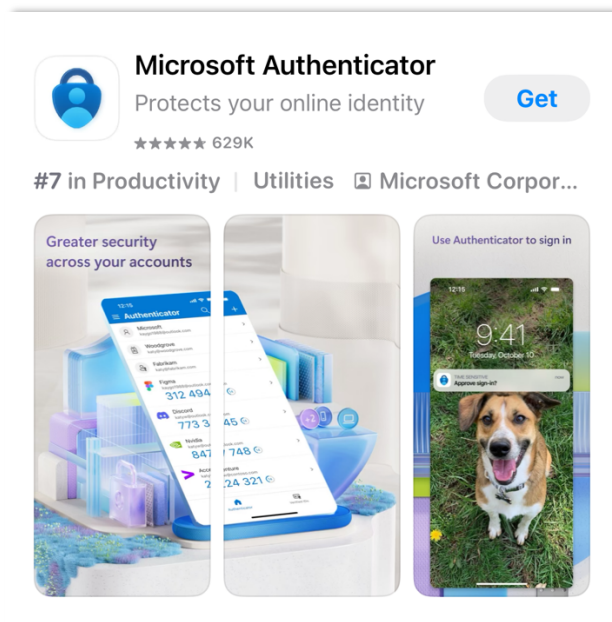

#### Download links:

Android:

[https://play.google.com/store/apps/details?id=com.azure.authenticator&pcampaignid=w eb\\_share](https://play.google.com/store/apps/details?id=com.azure.authenticator&pcampaignid=w eb_share)

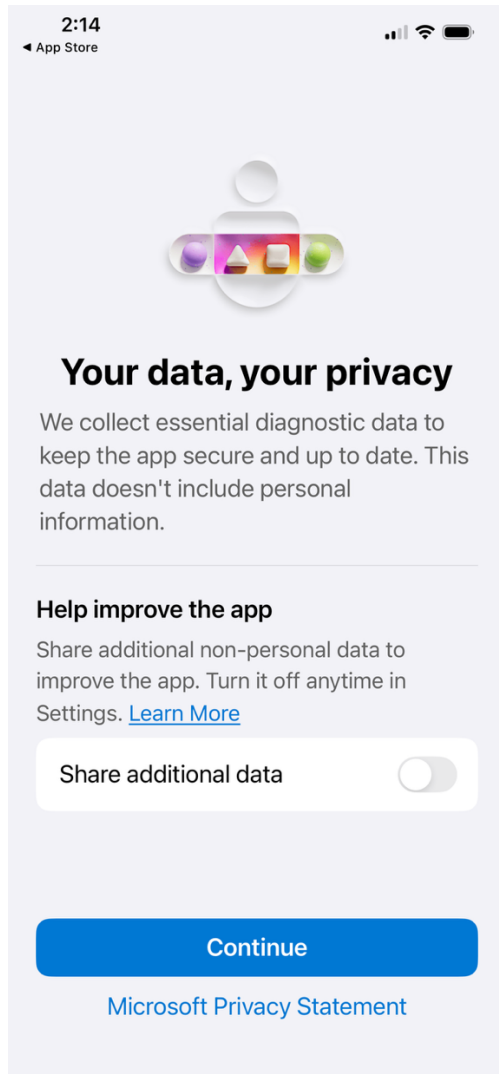

iPhone: <https://apps.apple.com/us/app/microsoft-authenticator/id983156458>

Or search “**Microsoft Authenticator**” in your app store.

## Step 2: Open the App

- Open the app
- If prompted about data/privacy, click **Continue**

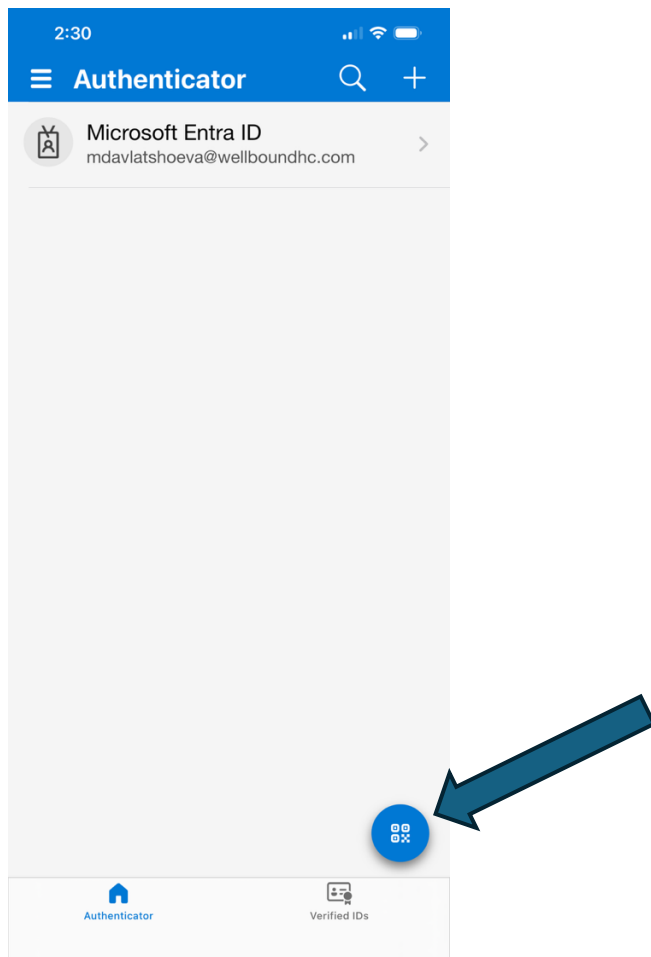

## Step 4: Prepare to Scan

Look for a **blue button with a code icon** (bottom right)

Tap it

Allow **camera access** when prompted

## Step 5: Log Into HCHB (On Your Computer)

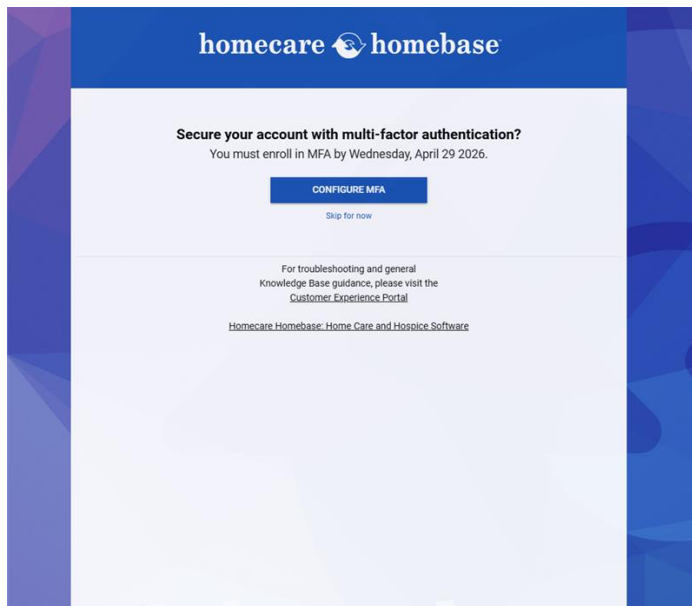

On your **computer** (not your phone):

- Go to **Homecare Homebase (HCHB)**
- Log in with your usual username and password

## Step 6: Start MFA Setup

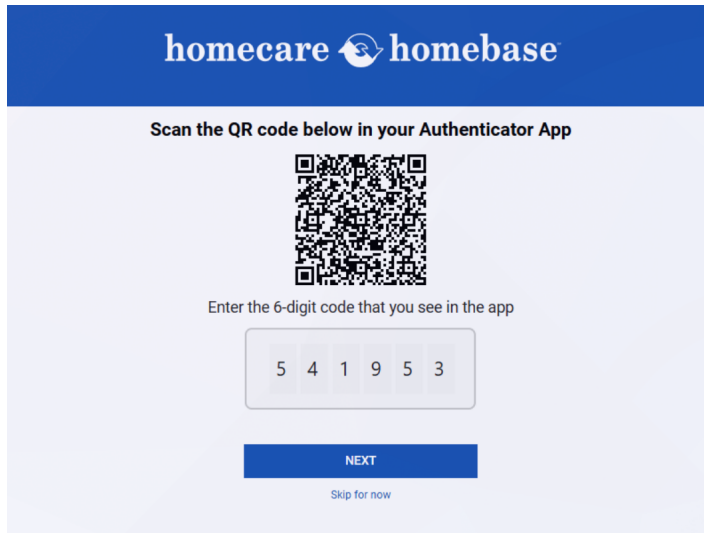

You will be prompted to set up MFA

**Do NOT** click “Skip for now”

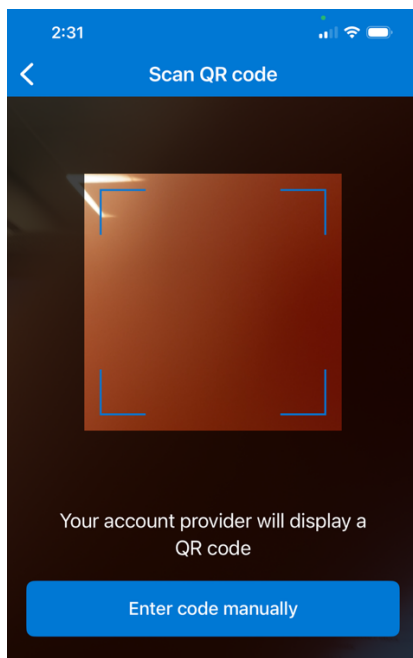

Click **Configure**, and you will see **two things**:

- A **QR Code** (square with black markings)
- A **6-digit code entry field**

## Step 7: Scan the QR Code

- On your phone, the camera will open
- Point it at your computer screen
- This will automatically connect your account

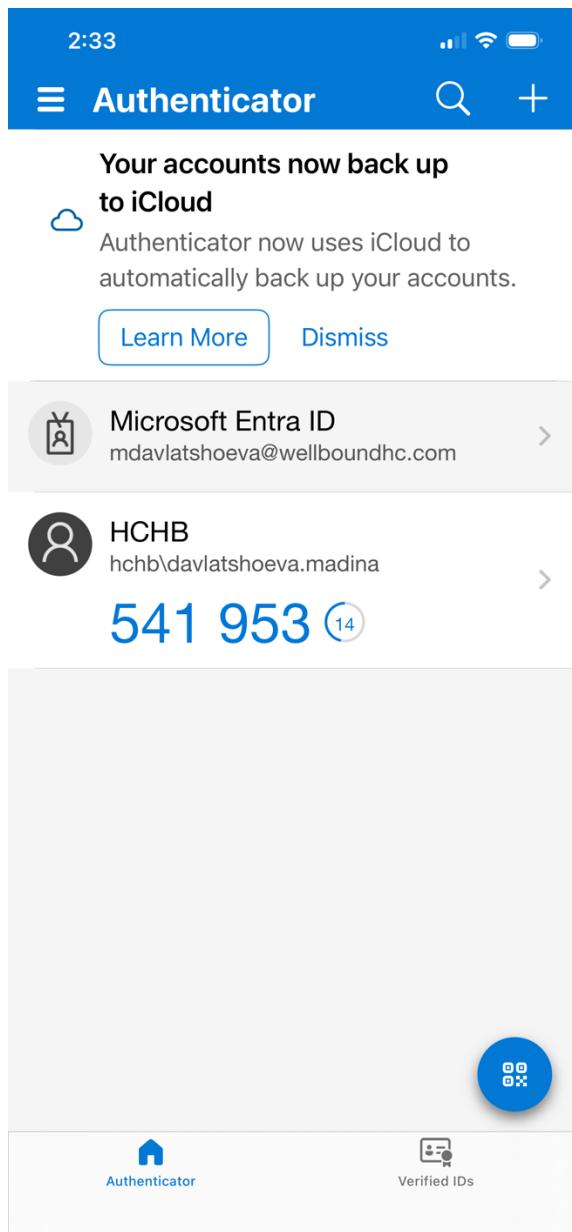

## Step 8: Enter the 6-Digit Code

A new HCHB account will appear in the app

It will generate a **6-digit code**

The code refreshes every **30 seconds**

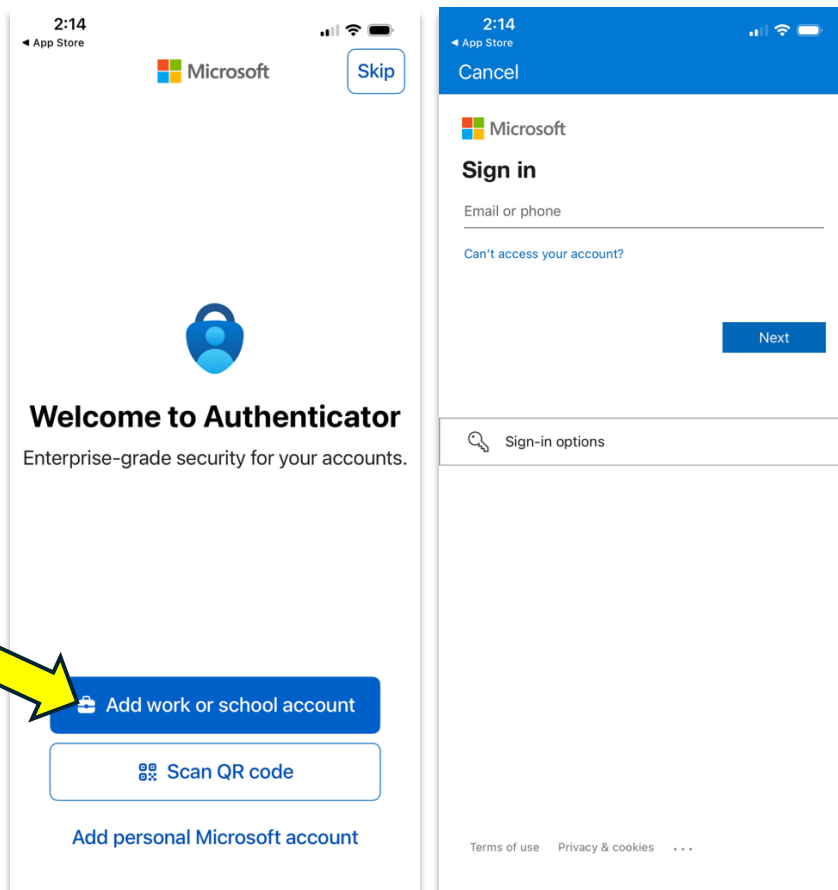

**Enter that code into the box on your computer**

## Step 3: Add Your Work Account

Tap “**Add Work or School Account**”

Sign in using your **work email** (Example: [yourname@wellboundhc.com](mailto:yourname@wellboundhc.com))

## Troubleshooting

### 1. Don't Know Your Outlook Password

- Email: [support@idtechsolutions.com](mailto:support@idtechsolutions.com)
- Call: 718-408-9199

### 2. Authenticator App Not Working

- Close the app completely (swipe it away)
- Reopen and try again
- If needed, restart your phone

### 3. QR Code Won't Scan

- Make sure your camera has permission
- Increase screen brightness on your computer
- Move phone closer/further from screen

### 4. Code Not Working

- Codes expire every 30 seconds
- Wait for a new code and try again

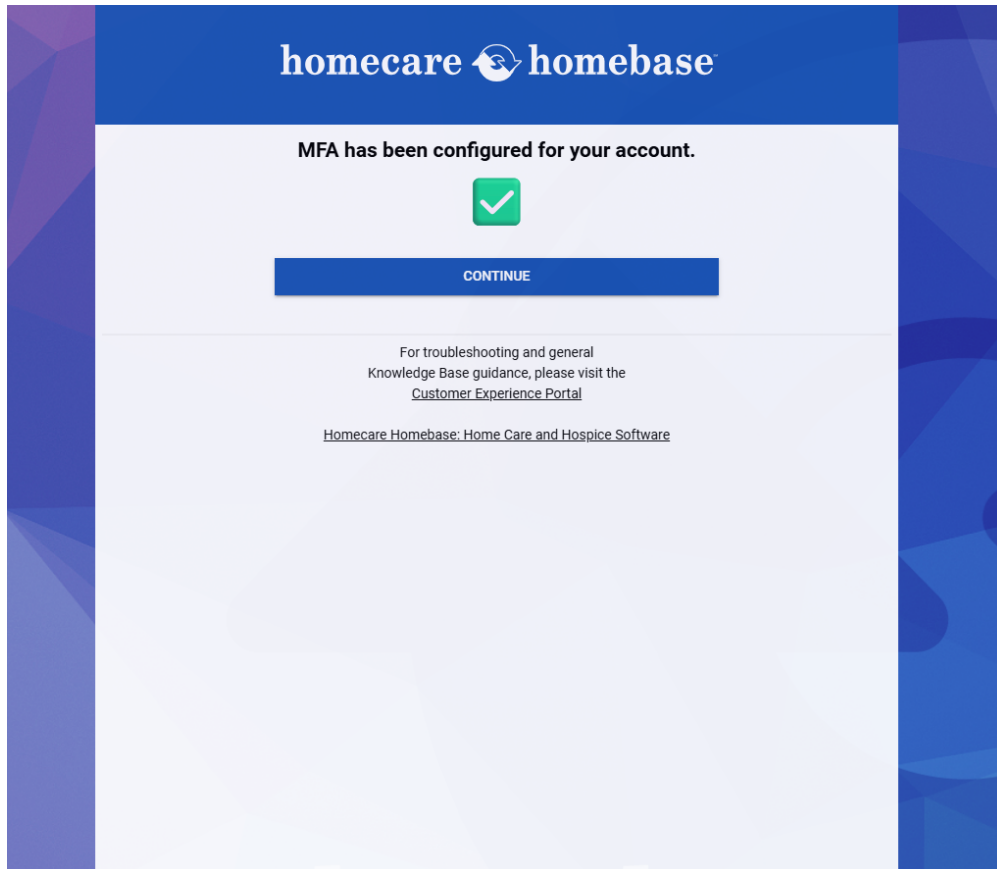

### 5. Accidentally Skipped Setup

- Log out and log back into HCHB
- You will be prompted again

## Step 9: Complete Setup

- You will see a **green checkmark**
- Click **Continue**

## Step 10: Confirm Completion

Email your **manager/supervisor** confirming MFA is set up
